

The Adarsh Engineering Works

Corporate Brochure

We are the one of the prominent manufacturers & suppliers of a wide array of sugar cane crusher and industrial product. Widely demanded for its quality & ease of operatibility, our range finds extensive application in sugar industries.

Established in the year 1957, we, “The Adarsh Engineering Works”, are one of the leading manufacturers and suppliers of a comprehensive range of sugar cane crusher and industrial product. Our range is fabricated using premium quality tools and components for ensuring sturdy construction, easy and noiseless operation, minimal maintenance, high rate of extraction and longer service life.

With the aid of advanced technology and engineering excellence, we have been able to fabricate an incomparable range that caters to the need of Jaggery Industry. It is due to the earnest efforts of our dedicated professionals that we have been able to offer timely and reliable services in terms of repairing, fabrication and job works. An uncompromising attitude towards quality coupled with client-oriented approach, have been the two primary reasons for our success.

The foundation of our organization was laid down by, 'Late Mr. Ram Nath Sharma'. He began the business by manufacturing only Oil Expellers and gradually expanded to the fabrication of Sugarcane Crushers. Today, the organization is managed by, 'Mr. Praveen Sharma', under whose guidance we have grown by leaps and bounds.

Kachchi Ghani Power Kolhu Machine
The Only Concept was first invented by the Ancient Rishis of India to Extract the oil from various oil seeds by using a wooden churner (Ghani).

Kachchi Ghani Power Kolhu Machine (Marachekku Machine)

The Only Concept was first invented by the Ancient Rishis of India to Extract the oil from various oil seeds by using a wooden churner (Ghani). Driven by bullocks , Here the wooden ghani remains the same, but the electric motor replace the animal . Means of Ayurveda the wood use in the churner is also made of selected like Neem, Sweet Baboon, Tamarind and Mango Tree as suggested by Ayurveda Rishis.

Wooden Churner (Ghani) consist of a wooden mortar and a pestal .. No Chemical, Low Pressure, does not create Heat above smoke point
